INVESTMENT PHILOSOPHY AND PROCESS

- The Fund is actively managed with a long-term, private equity approach to investing.
- Through the investment team's proprietary bottom-up research framework, the team looks to invest in those few high quality businesses with sustainable competitive advantages and profitable growth when they trade at a significant discount to intrinsic value.
- In a typical year the team may analyze 30 companies and invest in only a select few. The nature of this process leads to lower portfolio turnover.
- The result of this rigorous approach is a selective, high-conviction portfolio of 30 to 45 companies.
